

## REMARKS

The drawings were objected to under 37 CFR 1.83(a) for failing to show every feature of the invention specified in the claims. In response, Applicant has canceled claims 42-44 and 47. Claim 38 has been amended to exclude the features not specified in the claims. Applicant believes that these changes obviate the need for corrected drawing sheets.

Claims 43 and 44 were objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim must refer to the other claims in the alternative only. As stated above, Applicant has canceled claims 43 and 44.

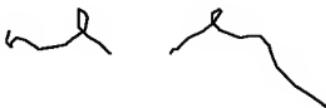

Claims 38-47 were rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention. In response, Applicant has amended claims 38, 40, and 45 to explain the differences in the light sources. Claim 38 was amended to read “a power source” rather than “the power source.” In claims 40, 41, and 45, line 2 of each claim now reads “claim” instead of “claims.” Claim 41 was amended to read “a magnetic holder of the mounting means” instead of “the said magnetic holder of the mounting means.” As stated above, Applicant has canceled claims 42-44 and claim 47.

Claims 38-42 and 45 were rejected under 35 U.S.C. 103(a) as being unpatentable over Payan et al. US publication 2004/0128888 A1 (Payan). Claim 46 was rejected under 35 U.S.C. 103(a) as being unpatentable over Payan and further in view of Williams, US patent #5,097,612 (Williams). Claim 47 was rejected under 35 U.S.C. 103(a) as being unpatentable over Payan and further in view of Fahs, US patent #5,132,666 (Fahs). In

response, Applicant has amended claim 38, upon which all other claims are dependent.  
No new matter has been entered.
